Cutera® Reports Fourth Quarter and Full-Year 2008 Results

BRISBANE, Calif., February 9, 2009 — Cutera, Inc. (NASDAQ: [CUTR](#)), a leading provider of laser and other light-based aesthetic systems for practitioners worldwide, today reported financial results for the fourth quarter and year ended December 31, 2008.

Fourth quarter 2008 revenue was \$17.9 million, compared to \$26.5 million in the same period last year. Full-year 2008 revenue was \$83.4 million, compared to 2007 revenue of \$101.7 million. Net loss for the fourth quarter of 2008 was \$235,000, or \$0.02 per diluted share. These fourth quarter results include a non-cash impairment charge, net of tax, of \$1.2 million, or \$0.09 per diluted share, associated with the company's investment in auction rate securities. Net loss for full-year 2008 was \$2.9 million, or \$0.22 per diluted share. These full-year results include a similar impairment charge, net of tax, of \$3.6 million, or \$0.28 per diluted share. As of December 31, 2008, the company had \$106.8 million in cash, marketable securities and long term investments - with no debt.

Kevin Connors, President and CEO of Cutera, stated, "2008 was a challenging year for our industry, as the global recession continued to affect customer purchasing decisions. Even though our revenue volume was impacted by this economic downturn, our decisive actions in managing expenses enabled us to generate a fourth quarter- and full-year profit after adjusting for non-cash impairment charges, net of tax, associated with our investments in auction rate securities. In January, we reduced the size of our workforce by approximately 10% in an effort to improve profitability and cash generation. We will continue to manage our expenses during these uncertain economic times to keep them in line with revenue levels."

He continued, "International revenue for the fourth quarter of 2008 was down 5% when compared to the year-ago quarter, but when measuring full-year 2008 to 2007, our international revenue grew 11%. We believe that our investments in our international infrastructure have positioned us well for international growth in 2009 and beyond."

“U.S. revenue for the fourth quarter of 2008 was down 52%, compared to the fourth quarter of 2007, and down 35% in 2008, compared to 2007. We feel that the continuing recession is causing our prospective customers to delay their purchase decisions. We also believe that those prospects who do not have established medical practices are finding it more difficult to obtain credit financing. In response to the current market conditions, we have been increasing our focus on the core market of dermatologists and plastic surgeons and other established medical offices through marketing efforts and product introductions.”

Mr. Connors concluded, “While the near-term prospects for our industry are difficult to predict due to economic uncertainty, we believe that our worldwide distribution network, solid cash position, strong portfolio of products, and various research and development projects underway offer continuing, long-term opportunities for our company.”

Conference Call:

The conference call to discuss these results is scheduled to begin at 2:00 p.m. PT (5:00 p.m. ET) on February 9, 2009.
