Cutera Reports First Quarter 2017 Financial Performance

Company Achieves Record First Quarter Revenue, and Extends Double-Digit Revenue Growth (Y-O-Y) to Eleven Consecutive Quarters

BRISBANE, California, May 1, 2017 — Cutera, Inc. (NASDAQ: <u>CUTR</u>) ("Cutera" or the "Company"), a leading provider of laser and other energy-based aesthetic systems for practitioners worldwide, today reported financial results for the first quarter ended March 31, 2017.

Key operating highlights and financial performance for the first quarter of 2017, when compared to the first quarter of 2016, were as follows:

- Revenue:
- o Increased 31% to a record first quarter \$29.3 million, due primarily to 60% growth in North America product revenue. International product revenue also contributed growth of 14%.
- o Eleventh consecutive quarter of double-digit revenue growth.
- O Growth experienced by multiple products with particular strength from *enlightenTM*, the Company's pico technology platform for tattoo removal and facial revitalization.
- Gross Margin was 53%, lower than previous expectations, due primarily to a greater percentage of revenue coming from our *enlighten* systems and associated upgrades. Key reasons for the lower gross margin associated with *enlighten* products include:
 - o Normal market seeding during the early launch phase inclusive of favorable pricing offered to our installed base to upgrade to *enlighten III*. The Company expects such upgrades to decline throughout the year;
 - o Higher initial costs of our enlighten III system, that are expected to decline throughout the year; and
 - o Continued increasing level of bundled transactions.

- Continued discipline on expense and leveraging as Operating Expenses declined as a percent of revenue from 65% to 58%.
- Profitability improved by \$1.1 million, from a net loss of \$2.1 million to a net loss of \$1.0 million.
- Cash, cash equivalents and marketable investments were \$48.4 million, and the Company remains debt-free.
- Repurchased \$2.9 million of stock under our Board approved \$10.0 million stock repurchase program.

James Reinstein, President and Chief Executive Officer of Cutera, stated, "We are very pleased to achieve a record level of revenue this past quarter resulting in our eleventh consecutive quarter of double-digit revenue growth, compared to the same period in the prior year. The growth is coupled with significant improvement in several operating metrics, illustrating the organization's ability to leverage the strong revenue. Our 31% revenue growth was driven by multiple platforms within our product portfolio, with particular strength coming from our *enlighten* product in North America. Our financial performance in the first quarter of 2017, and overall trajectory, has the Company well positioned for continued growth in revenue, profits and cash generation.

"Lastly, I would be remiss if I did not mention my regret that Ron Santilli, EVP and Chief Financial Officer, informed me of his decision to resign. I greatly appreciate the short time that we have worked together as Ron has been very collaborative and welcoming of me in my early days at Cutera. Ron will remain with the Company until we find his successor and a smooth transition is complete. On behalf of everyone at Cutera, I'd like to thank Ron for his 16 years of service and wish him well."

Product Updates

Initial market acceptance for the Company's *enlighten III* system has been very positive and many practitioners believe it is the best-in-class three wavelength pico-laser on the market allowing them to remove all tattoo ink colors, *enlighten III* also provides PicoGenesisTM skin revitalization with improved efficacy and faster speeds than any other product on the market. The Company plans to continue to seek additional indications on its *enlighten* platform to increase the functionality and treatment options for our customers.

The Company continues to enhance its $truSculpt^{TM}$ system for body sculpting. At the American Society for Laser Medicine & Surgery meeting in early April 2017, truSculpt 3D was launched with a new treatment method and higher frequency, resulting in increased efficacy and greater fat destruction. The truSculpt 3D will include a consumable revenue stream enabling the Company to share in the procedure income with its customers. This important technology improvement is critical for the Company to enable the truSculpt platform to become a more competitive offering in the body sculpting market. The Company expects to further enhance the platform in the second-half of this year to provide our customers with additional utility, efficacy and an improved return on their investment.

2017 Guidance:

The Company expects:

- Revenue of approximately \$32.0 million in the second quarter of 2017, and approximately \$140.0 million for the full-year of 2017, compared to previous guidance of approximately \$135.0 \$140.0 million.
- Earnings Per Share: approximately \$0.03 for the second quarter 2017, and \$0.45 \$0.50 for the full year of 2017.
- To Repurchase sufficient shares to maintain the fully diluted share count at approximately 14.0 million during 2017.
