# Cutera, Inc. Announces Third Quarter 2020 Financial Results

BRISBANE, California, November 4, 2020 – Cutera, Inc. (NASDAQ: <u>CUTR</u>) ("Cutera" or the "Company"), a leading provider of laser and other energy-based aesthetic systems for practitioners worldwide, today reported financial results for the third quarter ended September 30, 2020.

#### Third Quarter 2020 Financial and Operational Highlights

- Revenue was \$39.1 million, a 15% decrease from the prior-year period, as COVID-19 disruptions led to a year-over-year decline in capital equipment deals as well as overall
  energy-based aesthetic procedures during the quarter, compared to a 45% year-on-year decline in 2Q20.
  - o Capital Equipment revenue of \$24.1 million decline of 31% over prior-year period, compared to a 59% decline in 2Q20.
  - Recurring revenue grew \$3.9 million or 35% over prior-year period, compared to 6% in 2Q20, driven primarily by Skin Care revenue growth of 140% over third quarter 2019.
- Gross Margin was 56%, compared to 57% in the prior-year period, driven by lower production levels and substantially lower overhead absorption during the quarter, offset by
  reductions in manufacturing overhead, increased manufacturing efficiencies and continued pricing discipline.
- Operating Expenses were \$23.0 million, down \$5.7 million or 20% from prior year period, delivering improved leverage in the period.
- Net loss was \$2.3 million, or \$0.13 per fully diluted share, as compared to a net loss of \$2.6 million, or \$0.19 per fully diluted share, in the prior-year period.

"I am pleased with our third quarter financial performance, with faster-than-expected sequential improvement in capital equipment sales and exceptionally strong recurring revenue growth of 35% year-over-year," commented Dave Mowry, Chief Executive Officer of Cutera, Inc. "Moreover, I am very proud of our team's continued expense discipline, which led to increased profitability in the period and allowed us to achieve positive cash flow on a non-GAAP basis a quarter earlier than expected. While we continue to anticipate COVID-related headwinds to capital equipment sales in the fourth quarter, our year-to-date operational focus and outlook for sequential growth in both equipment sales and procedure volumes will provide a pathway to stronger results in the near-term and a solid foundation going into fiscal year 2021 and beyond."

#### \*Use of Non-GAAP Financial Measures

In this press release, in order to supplement the Company's condensed consolidated financial statements presented in accordance with Generally Accepted Accounting Principles, or GAAP, management has disclosed certain non-GAAP financial measures for the statement of operations and net income (loss) per diluted share. Non-GAAP adjustments include stock-based compensation, depreciation, amortization, executive and other non-recurring separation costs, customer relationship management ("CRM") and enterprise resource planning ("ERP") system costs, non-recurring legal and litigation costs, as well as the net tax impact of excluding these items. From time to time in the future, there may be other items that we may exclude if the Company believes that doing so is consistent with the goal of providing useful information to investors and management. The Company has provided a reconciliation of each non-GAAP financial measure used in this earnings release to the most directly comparable GAAP financial measure. The Company has not provided a reconciliation of non-GAAP guidance measures to the corresponding GAAP measures on a forward-looking basis due to the potential significant variability, limited visibility, unpredictability, or unique non-recurring nature of the items. Forward-looking non-GAAP measures include EBITDA. The Company defines adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, stock-based compensation, executive and other non-recurring separation costs, customer relationship management ("CRM") and enterprise resource planning ("ERP") system costs, and non-recurring legal and litigation costs.

Company management uses these measurements as aids in monitoring the Company's ongoing financial performance from quarter to quarter, and year to year, on a regular basis and for benchmarking against other similar companies. Non-GAAP financial measures used by the Company may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies. These non-GAAP financial measures should be considered along with, but not as alternatives to, the operating performance measure as prescribed by GAAP. Non-GAAP financial measures for the statement of operations and net income per diluted share exclude the following:

Non-cash expenses for stock-based compensation. The Company has excluded the effect of stock-based compensation expenses in calculating its non-GAAP operating expenses and net income measures. Although stock-based compensation is a key incentive offered to its employees, the Company continues to evaluate its business performance excluding stock-based compensation expenses. The Company records stock-based compensation expense related to grants of options, employee stock purchase plan, and performance and restricted stock. Depending upon the size, timing and the terms of the grants, this expense may vary significantly but will recur in future periods. The Company believes that excluding stock-based compensation better allows for comparisons to its peer companies;

**Depreciation and amortization.** The Company has excluded depreciation and amortization expense in calculating its non-GAAP operating expenses and net income measures. Depreciation and amortization are non-cash charges to current operations;

**Executive and other non-recurring separation costs.** We have excluded costs associated with the resignation of our former Executive Officers in calculating our non-GAAP operating expenses and net income measures. We exclude these and other non-recurring costs related to Reduction-in-Force ("RIF") because we believe that these items do not reflect future operating expenses;

**Customer Relationship Management.** We have excluded CRM system costs related to direct and incremental costs incurred in connection with our multi-phase implementation of a new CRM solution and the related technology infrastructure costs. We exclude these costs because we believe that these items do not reflect future operating expenses and will be inconsistent in amounts and frequency making it difficult to contribute to a meaningful evaluation of our operating performance;

**Enterprise Resource Planning.** We have excluded ERP system costs related to direct and incremental costs incurred in connection with our multi-phase implementation of a new ERP solution and the related technology infrastructure costs. We exclude these costs because we believe that these items do not reflect future operating expenses and will be inconsistent in amounts and frequency making it difficult to contribute to a meaningful evaluation of our operating performance; and

Non-recurring legal and litigation costs. We have excluded costs incurred related to third party litigation and disputes, that are of a non-recurring nature.

The Company believes that excluding all of the items above allows users of its financial statements to better review and assess both current and historical results of operations.
